WORK EXPERIENCE

USC Viterbi School of Engineering – Website Management Assistant, *Los Angeles, CA*

August 2026 – Present

- Maintain and update USC Viterbi web content and digital communications, including weekly newsletter content, links, imagery, and HTML formatting.
- Test HTML newsletter templates across email clients and troubleshoot layout, image, and compatibility issues before distribution.

Dancing Fingers Massage AZ – Software Developer, *Remote*

December 2022 – Present

- Developed and maintained a responsive business website using React, Tailwind CSS, JavaScript, and Firebase, implementing features based on real business and customer needs.
- Built a custom appointment scheduling system supporting multiple therapists, real-time availability, and customer self-service booking.

Project Empower – Front-End Developer, *Remote*

April 2024 – July 2026

- Built user interfaces for OpenGrant, a scholarship platform reaching 5M+ views and 300K+ users, using React and Tailwind CSS.
- Collaborated with a distributed development team to build and maintain responsive software products serving underprivileged communities.

APEERS – Front-End Web Developer, *Remote*

February 2024 – June 2026

- Developed responsive web interfaces using Next.js, React, and Tailwind CSS across client projects reaching 40,000+ users.
- Collaborated with the software lead to implement designs, maintain development standards, and deliver features on schedule.

VOLUNTEER ACTIVITIES

FBLA – Chapter President – *Phoenix, AZ*

August 2024 – May 2026

- Led a 30+ member chapter, organized meetings and competitive preparation, and raised \$2.2K to support travel, events, and chapter initiatives.
- Earned 1st Place in Project Management at the 2026 Arizona State Leadership Conference and qualified for the FBLA National Leadership Conference.

Tech Titans – Founder & President – *Phoenix, AZ*

August 2016 – December 2016

- Founded and led a 30+ member programming and robotics organization, delivering technical workshops and mentoring students in software and project development.
- Organized a 400+ attendee hackathon and raised \$1.7K to support robotics projects, equipment, and club activities.
-

RECENT PROJECTS

TutorScape – AI-Powered Peer Tutoring Platform, <https://devpost.com/software/tutorscape-jsalz2>

May 2024

- Built a full-stack peer-to-peer tutoring platform that uses AI to match students with complementary academic strengths and tutoring needs.
- Earned 1st Place / Top Winner at Innovation's Tech for All Hackathon 2024.
